All the necessary arrangements have been made for the hill climbing events on Anderson's Hill at White Plains on Saturday that will be the first entry into metropolitan 'competition of the Amateur Automobile Contest Association. After the conclusion of the events the conteants and officials are to be entertained at dinner at the Knollwood Country Club. After the dinner those present are to discuss plans for the road race which the association members plan as their chief event of this season and if is possible that the time and place may be selected.

There has been a great deal of discussion among the members of the association regarding the course over which the proposed road race is to be run. Some of the members favor the circuit at Riverhead, I. I. over which Louis Chevrolet averaged as miles an hour with his thirty horse-power Buick last year, but it is not certain that this course will be selected for the amateur event. The Long Island Motor Parkway is favored by a number of the members. July is the month most favored for the road race, as several members of the members of the association are planning to drive their own cars in the Vanderbit cup, race on October I. If a July date is not chosen it is expected the race will be held if August. The motorcycle races for Westchester patrolmen, which will precede the hill climbing events on Saturday at White Plains, have attracted fifteen entries and almost every police force in the county will be represented. After their event, is finished the motorcycle policemen will help guard the course and will be assisted by about forty members of the Westchester fire companies who have volunteered their services. Oliver Harriman's recent acceptance of a justiceship is responsible for keeping him out of the events on Saturday in front of his house, as he is an enthusiastic member of the association and would like to drive his own car in the contests.

Some than ten sets of athletic games have been found that the proposed of the contract of the

Long Island Automobile Club will be held this year on Tuesday. June 7.

With half a dozen members of the promoting club riding with the driver of the oil sprinkling wagon, the oiling of the course up Shingle Hill at West Haven, Conn. was started vesterday to propere the course for the third annual hill climbing contest of the Yale University Automobile Club on Tuesday, June 7. The members of the club committee in charge of the events acted as an escort for the oil wagon in its first trip up the grade.

The formerly dangerous "5" turn has been fived up and the overfamping rock has been blasted away. The road up the hill has been thoroughly scraped and the course will be ready for practice at once. The New Haven Automobile Club has formally voted to concerate with the student automobilists and will appoint officials at a meeting to be held this week.

The securing of an injunction against the holding of the Automobile Club of Bridge-port's annual hill climbing contest on Sport Hill on Decoration Day, which threatens to prevent the events being rup this year makes it probable that the Yale climb will be the only big event of the kind in Connecticut this year. Should the Bridgeport club be forced to abandon the event the Yale climb will probably assume the nature of a joint contest in which many of the entries in the Bridgeport events will be transferred to the students affair.
